# Reliability & Trust

Reliability means keeping one's word. To do everything one has promised and can therefore rely on.

We are a reliable partner for our business partners, and this reliability creates trust. Most of our business relationships exist since many years and are the foundation for common business success.

What I started alone years ago has developed into an international group of companies with more than 80 employees. Different branches in different countries create a reliable supply chain for our valued customers.

By adhering to international quality standards, we ensure the professional handling of medical equipment. This makes us an important partner for many hospitals, which also benefit from the price advantages offered by us.

The introduction and implementation of digitisation in our supply chain will further professionalise our services and offer advantages to our suppliers and customers.

You too can benefit from these advantages! We cordially invite you to get to know us!

Stay healthy!

Chris

# Our Company

CARDIMED Africa LTD is a medical global purchasing organisation and part of an international group of companies with independent branches in Tanzania, The Netherlands, Germany, Türkiye, USA, Poland, Switzerland and Tanzania.

Our key business partners are hospitals and clinics, medical wholesalers, suppliers and manufacturers. We serve customers in more than 50 countries. Working with CARDIMED Africa LTD means working with a reliable partner within a network of suppliers and independent branches worldwide.

We strive to be the most customer-focused company, operate demand-driven and we are continuously optimising and expanding our product and service portfolio. The flexibility of our work-processes makes it possible to create a suitable solution for every customer. We enable healthcare organisations to focus on their core business through cost reduction, efficiency and supplier reduction.

We have a comprehensive portfolio of healthcare services and products. Find out more about what we do on our website or contact us directly!

## Mission

CARDIMED Africa LTD delivers medical devices in nearly 50 countries to hospitals, medical wholesalers, healthcare professionals and their patients. Regardless of their origin, gender, religion or political affiliation.

## Vision

Imagine a world in which every single human being can have access to the best and affordable healthcare.

That's our commitment.

## Core Values

Service

Integrity

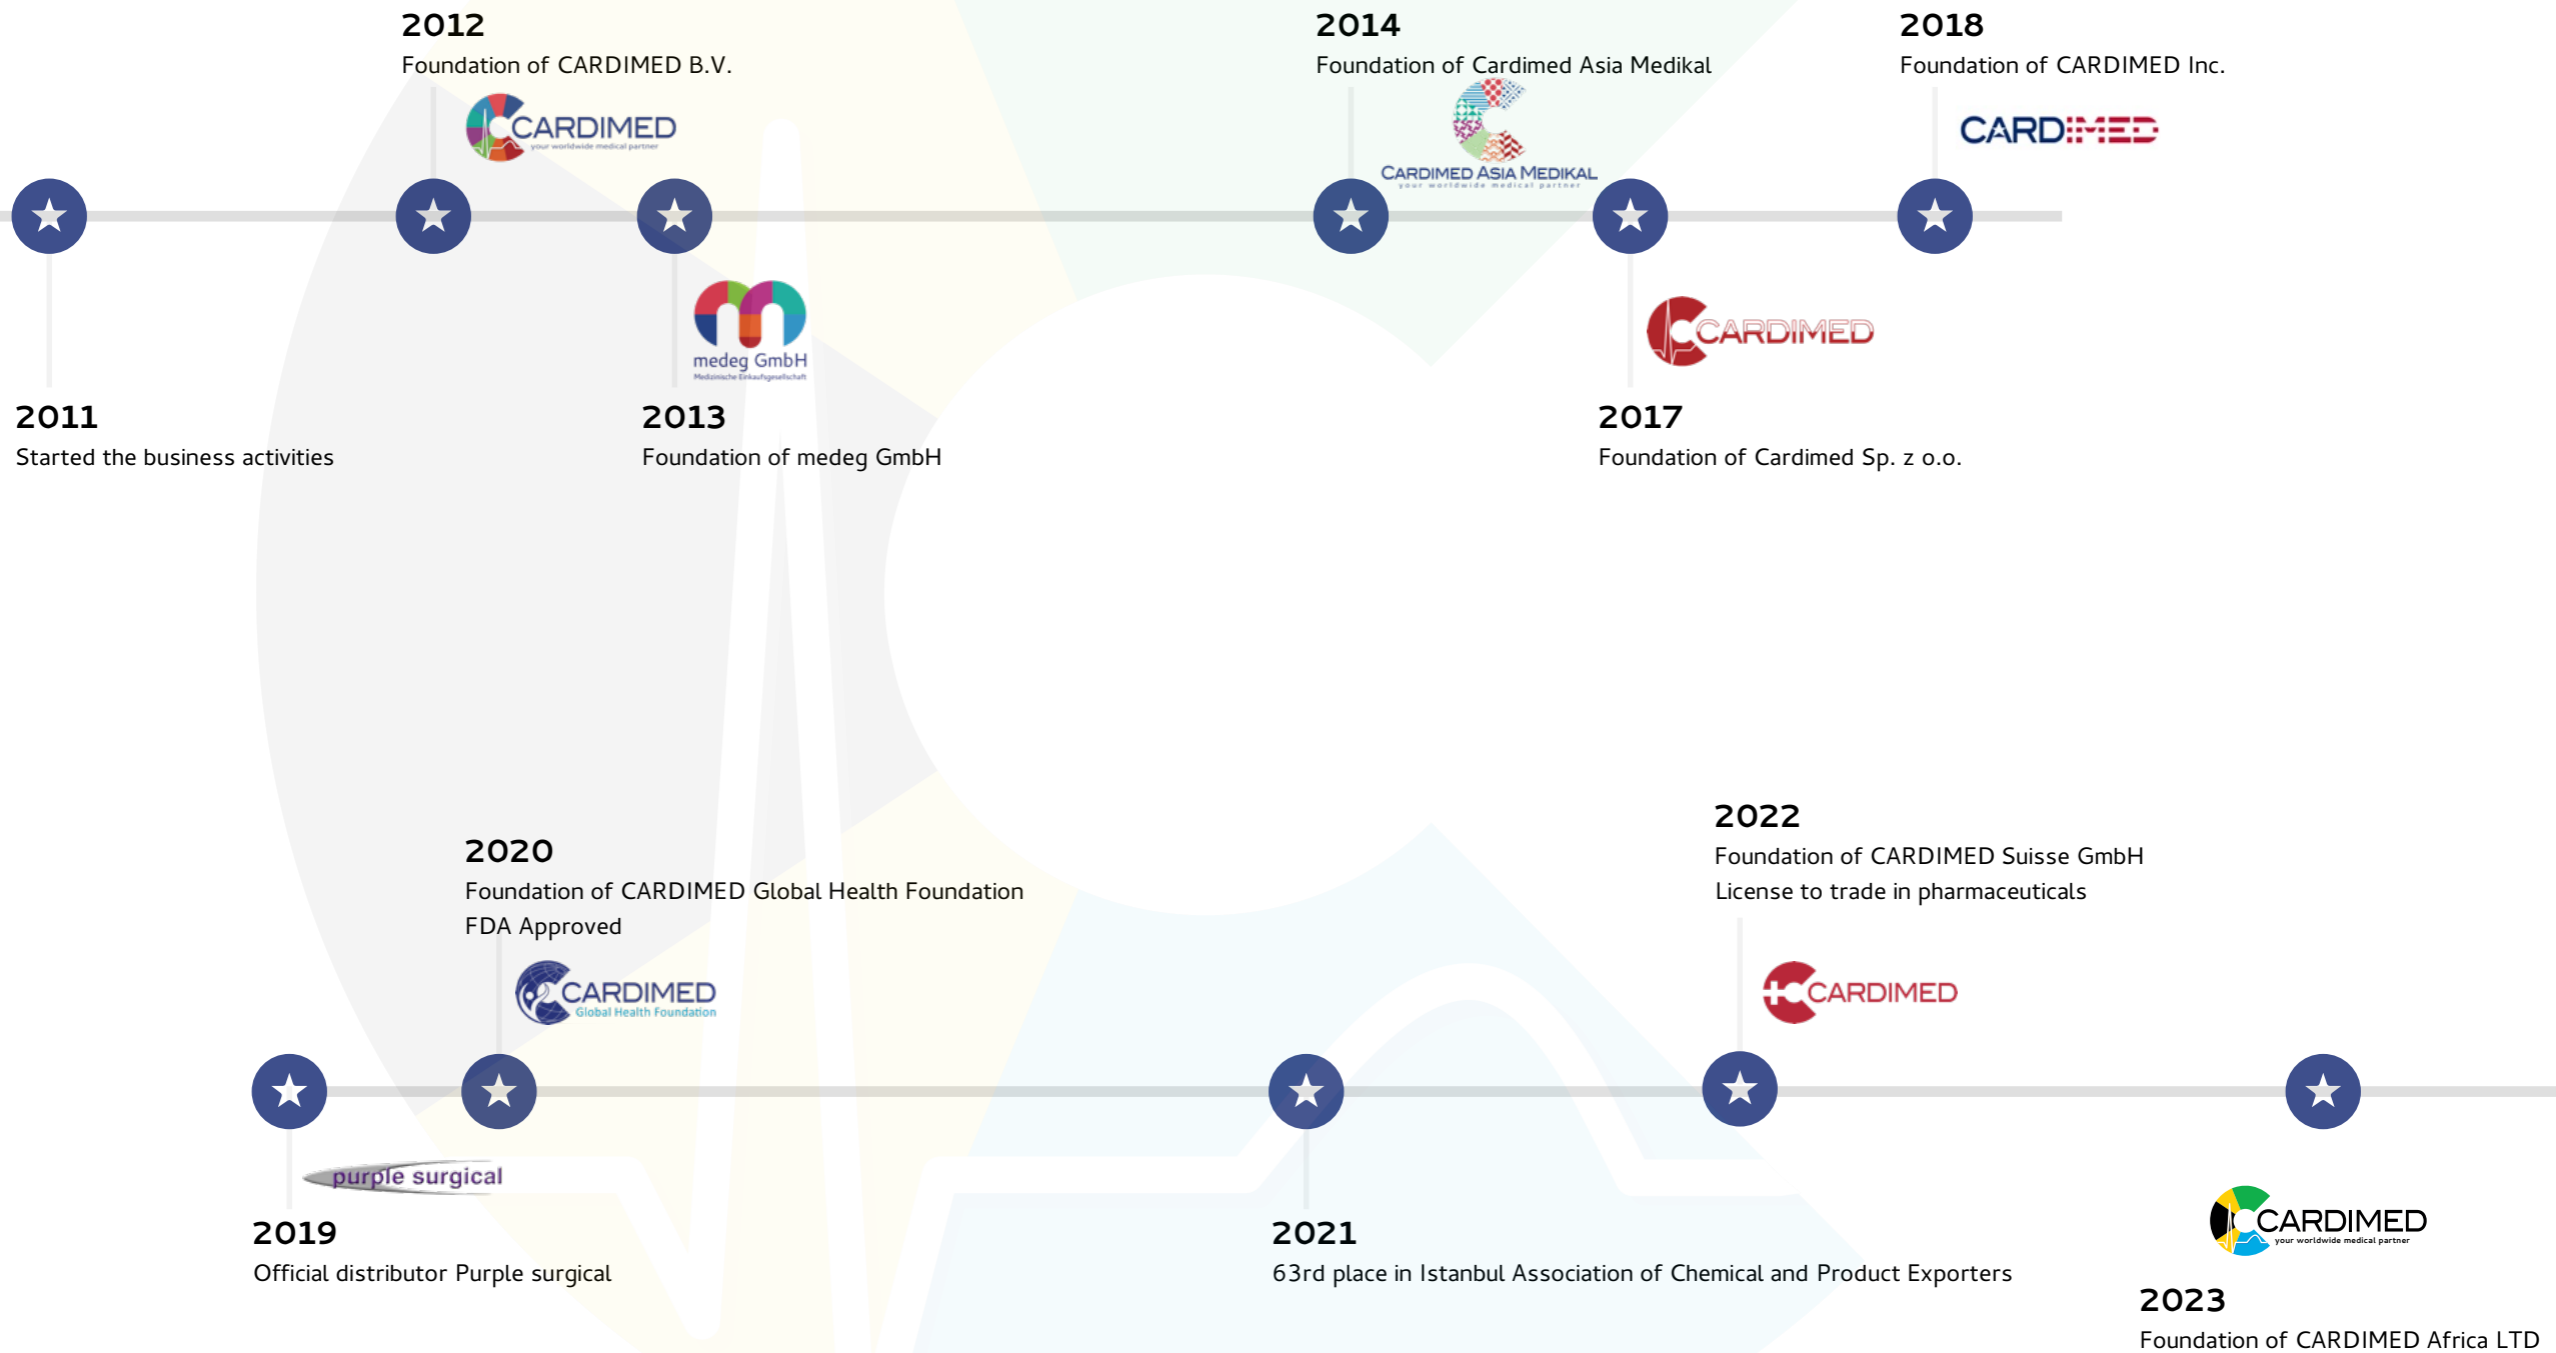

Trust & Respect

Customer Satisfaction

# Timeline

## CEO

Nelly Otenyo

CARDIMED Africa LTD is a global purchasing organisation that aims to improve lives through innovative medical solutions. We serve a wide range of healthcare institutions across Africa, including hospitals, laboratories, NGOs, research institutes, and manufacturers. Our mission is to be your worldwide medical partner, providing high-quality products and services.

One of our key priorities is to ensure ethical business practices and contribute to local workforce development. We provide training and employment opportunities, fostering partnerships and initiatives that contribute to medical advancements. Our commitment to quality is upheld through continuous training on the latest medical device trends and innovations, collaborations with manufacturers with high regulatory compliance, accreditations from reputable healthcare accreditation bodies, and quality control programs.

With a large supplier network across the world and sister companies in the Netherlands, Turkey, Poland, Germany, Switzerland, and the USA, we offer a strong and stable supplier network that allows for flexibility in our purchase channels. We provide products from various brands, divisions, and price points to cater to diverse needs.

As global trade and supply chains become more complex, our certified and experienced logistics team handles the export formalities of your consignments. With warehouses in multiple countries, including the Netherlands, Turkey, Poland, Germany, Switzerland, the USA, and Tanzania, we ensure efficient and reliable delivery. By taking care of the administrative tasks associated with global supply and logistics processes, we enable healthcare professionals to focus on providing the best care to their patients.

Our expanding portfolio of advanced medical devices is poised to make a substantial impact on the healthcare landscape across Africa. Through our innovative platform, we seamlessly connect healthcare providers with life-saving devices. We remain dedicated to delivering essential medical solutions that address the unique healthcare challenges faced by communities throughout Africa.

## Global Operations Manager

Rianne Peters

Within our group of companies we are constantly looking for ways to improve our business processes. In order to provide the best possible service to our customers, we focus on coordination and synergy between our departments and companies.

Due to our flexibility and short communication lines in our worldwide network of independent branches we are able to offer the best service in accordance to the needs of our customers.

Our global network of suppliers and forwarders is stable and strong, we are able to offer products from many brands and divisions at the best possible price. We have large storage facilities and all consignments will be handled by our own logistics in our internal warehouses.

To ensure compliance with the quality level of our partners we designed a management system that contributes to a smooth and efficient daily work-flow.

Best quality product at the lowest possible price

# Our Product Portfolio

We offer a wide range of medical devices and supplies

Cardiology

Neurology

Medical Disposables

Orthopedics

Surgical Instruments

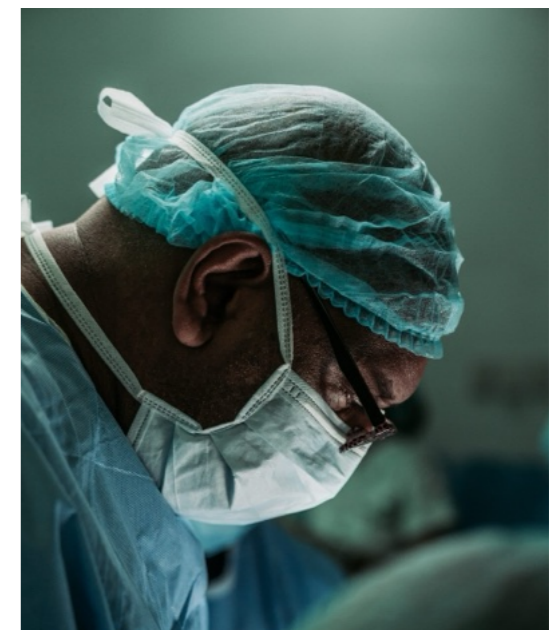

Dental

Wound Care

Sport Care

In 2020 CARDIMED Global Health Foundation was founded. Our goal is to help people in need. Especially with medical problems. For this purpose we collect donations and will carry out many social and cultural support measures.

CARDIMED Global Health Foundation is an independent foundation. The head office is located in Maastricht. We support people who need medical assistance. Culture, nationality and origin are irrelevant.

Millions of people regularly become victims of wars, natural disasters, crises, poverty or famine. The consequences are often health problems that these people do not have sufficient financial means to treat. This is where we want to change things.
